

BIRTHWISE MIDWIFERY SCHOOL

Midwifery Assistants of Color Scholarship Guidelines

Goal of Scholarship:

As a way to play a small part in addressing the disparities in birth outcomes among Black mothers, women of color, and their babies, Birthwise Midwifery School offers a program to decrease financial barriers for applicants of color.

The goal of the Midwifery Assistants of Color Scholarship is to increase the number and presence of birth workers of color in the midwifery field by providing direct support and financial resources for aspiring midwifery assistants of color whose presence may have an immediate effect on birth outcomes in their community and nationwide. We feel it is imperative that communities have access to health providers who understand what it means to be a person of color in America and how the stressors of systemic racism can contribute to unfavorable birth outcomes if the disparities are to be corrected. Birthwise would like to help make midwifery training, and ultimately midwifery care, more accessible to the people who need it most.
