In Preparation for Orientation Week: August 5th – 9th

- Review all course syllabi on Sycamore. During this first week you will complete Orientation and begin Overview of the Human Body for Midwives (OHB), Skills 1 and Normal Prenatal classes.
- Read the **2019-20 Student Catalog** (available on Sycamore and [on our website](#)) and be prepared to take a small quiz when you arrive for Orientation.
- Complete the Orientation Readings listed on your Orientation Syllabus.
- Purchase your Anatomy and Physiology text: **Essentials of Human Anatomy: Physiology** by Elaine N. Marieb, (12th or any recent edition) ISBN: 9780134395326. You will be reading this whole book from start to finish. We recommend that you get started on this!
- Complete homework for your first week of classes as indicated on the syllabi.
- Visit the [Accepted Students Page of our website](#) for information about purchasing the rest of your books for the semester as well as your midwifery supplies.
