We remain fully committed to our mission of training skilled and compassionate midwives, and continue to offer the strong program our students and prospective students expect. As we look ahead at 2021, we are planning for the possibility that some of our classes may need to remain online, or that we will temporarily need to move to online only instruction if required by the State of Maine or necessary to protect the safety of students, staff and faculty. Please share any thoughts you have about these unknowns, and the potential of your program being delivered partially online. *Please note: Answers to this question will not factor into your acceptance.* (250 words or less)
